

LIFE IS WHAT IT IS - ??

“The price of misinformation”!

With the wealth of information available to the masses comes the opportunity for spreading lies and misinformation. The amount of lies and misinformation circulating the globe is enormous. Lurking behind these lies and misinformation are those who want to build their own kingdoms through any means possible. Why else tell a lie and spread misinformation except for self-interest. The root of spreading these lies and misinformation is the lust for power, money and prestige. Take the situation regarding Israel. This little nation is the target of unprecedented lies and misinformation. The present situation in the Middle East is blamed on Israel by many leaders and commentators throughout the world. Even the old blood libels are brought back into fashion by the Muslim faithful and these lies are believed by more than a few. Terrorists who take any opportunity to kill a Jew in Israel, no matter if it be a woman, child, elderly person or innocent citizen are called freedom fighters by those who know better. For some reason Israel is supposed to accept these onslaughts against their citizens that no other nation on earth would put up with. Israel is painted as the evil occupier and seen as having no historical claim to its ancient homeland. Instead the Palestinian lie has grown legs and is fast driving out the truth. This has grown to the extent that some now believe Jerusalem is the capital of the so-called Palestinians. The facts of history are being replaced by the lies and myths of those who are focused on the destruction of Israel. These lies and misinformation have found a strong foothold in our Governments and educational institutions. Try holding a pro Israel meeting in most Western Universities and you will be quickly shut down. It is bewildering how “intelligent,” well educated men and women in the West can be deluded into thinking or believing that Islam is a religion of peace. This goes against every evidence available. Yet as I write this Fox News has released information regarding an experiment Ami Horowitz carried out at Portland State University. Ami pretended to represent a group called “American Friends for Hamas”, and they were raising money in an effort to attack soft targets in Israel like schools, and cafes in an effort to wipe Israel off the map. It was reported a number of student made pledges and within approximately one hour hundreds of dollars were raised. Tragically this is not an isolated case on University campuses. This type of behaviour is spreading far and wide. The “educated” elite are saturating our media outlets

with misinformation and lies in an effort to destroy our Judaic-Christian foundations. The hatred for such is so great these educated people would rather support those who commit the most atrocious crimes against humanity. I am staggered by how far the elitist left will go to placate Muslims, always willing to turn a blind eye to the most horrific crimes. They refuse to look at the history of the Islamic faith and the foundations it was built on. For a well educated person to say with conviction that the likes of Hamas are more humane and run a better Government and have a better system in place for humanity than Israel is mind boggling. To even pretend that the likes of Hamas offer greater opportunity and freedom for its citizens than Israel is beyond belief.

We live in a world that is so full of lies and misinformation that it is almost impossible to sort through the maze presented to us on a daily basis. Finding hope is becoming very difficult for our young people, as confusion reigns supreme. The solid and tested biblical world view is being attacked from every quarter and with it comes darkness and the rise of evil due to the increase of lawless societies. We witness the result of this rise in evil every day. If I were to list the evil committed every day in the world, I would need an army of assistants to keep the list up to date. There is only one way to turn this around and that is for all to fall on their knees and seek forgiveness from the God of Israel employing His instructions for His creation. May God help us all!
